

Why the Sage Intacct + PointClickCare Software Combo is So Great for CEOs

The Role of the CEO and Data

When managing the complexities of a long term care organization, understanding how to get the most out of your senior living technology solutions can be key. That's where the integration between PointClickCare (PCC) and Sage Intacct can have a large impact. It holds the potential to revolutionize how CEOs can use data to make more informed decisions and more easily steer an organization to optimal outcomes.

Let's get more specific though and check out some compelling ways how the Sage Intacct and PCC combination makes an impact. In this Ebook, we will cover:

- Options for Senior Living Technology Solutions
- Uniting Financial and Clinical Excellence
- Empowering CEOs to Boost Efficiency
- Giving CEOs Transparency
- Removing Barriers so CEOs can Drive Growth

Options for Senior Living Technology Solutions

A recent survey showed that most companies (89%) see accounting as the most essential part of a full Enterprise Resource Planning (ERP) solution, and with senior living technology solutions, it's no different.

Sage Intacct

Financial oversight is a constant, and Sage Intacct offers a comprehensive solution to facilitate that. Sage is the industry leader in advanced reporting and analytics capabilities that provide senior living executives with real-time insights into their financial performance, operational efficiency, and revenue cycle management

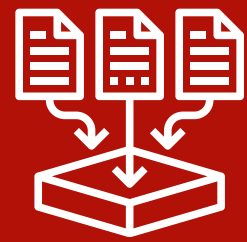

PointClickCare (PCC)

PCC handles your clinical management. Executives understand the critical importance of delivering quality patient care while optimizing operational efficiency. PCC allows CEOs to monitor KPIs and identify areas for improvement. The solution gives your team the tools to make data-driven decisions that positively impact patient care.

Uniting Financial and Clinical Excellence

The true magic happens when Sage Intacct and PCC join forces, unlocking unparalleled potential for CEOs seeking to drive excellence in financial management and clinical care. You have made an investment in best of breed clinical, so do the same with your financials.

Break down silos

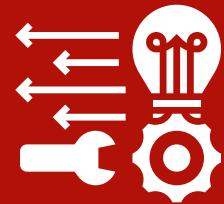

This integration ignores traditional silos, enabling you to break down barriers between departments to foster a culture of collaboration

Insights across your Org

Up-to-date reports and automated data reconciliation processes give a unified view of your organization's performance at your fingertips.

to 36%
faster**

Dig in deeper

Combining your clinical and financial data lets you drill down and examine the impacts of billing & census information on your financial reporting.

Optimize your resources

Track revenue trends, align budget allocations with clinical priorities and outcomes, optimize resource utilization, and even improve cost-effectiveness.

Empowering CEOs to Boost Efficiency

Integrating financial and clinical data allows executives to eliminate duplicate data entries and manual reconciliation processes, saving valuable time and resources.

Your administrative staff can focus on higher-value tasks and leave the day-to-day tasks to automation, like billing, claims management, and even financial reporting.

The automation capabilities inherent in both Sage Intacct and PCC helps you:

01

Reduce the risk of human error and optimize resource utilization

03

Identify bottlenecks and allocate resources more effectively

02

Do more with less

04

Drive greater value and impact

Giving CEOs Transparency

Centralizing data and standardizing processes with a cloud ERP solution & clinical integration like Sage Intacct for PointClickCare brings consistency and transparency across your organization.

Whether you're managing one or multiple long term care facilities or overseeing a complex network of care providers, you can trust that everyone is working from the same data.

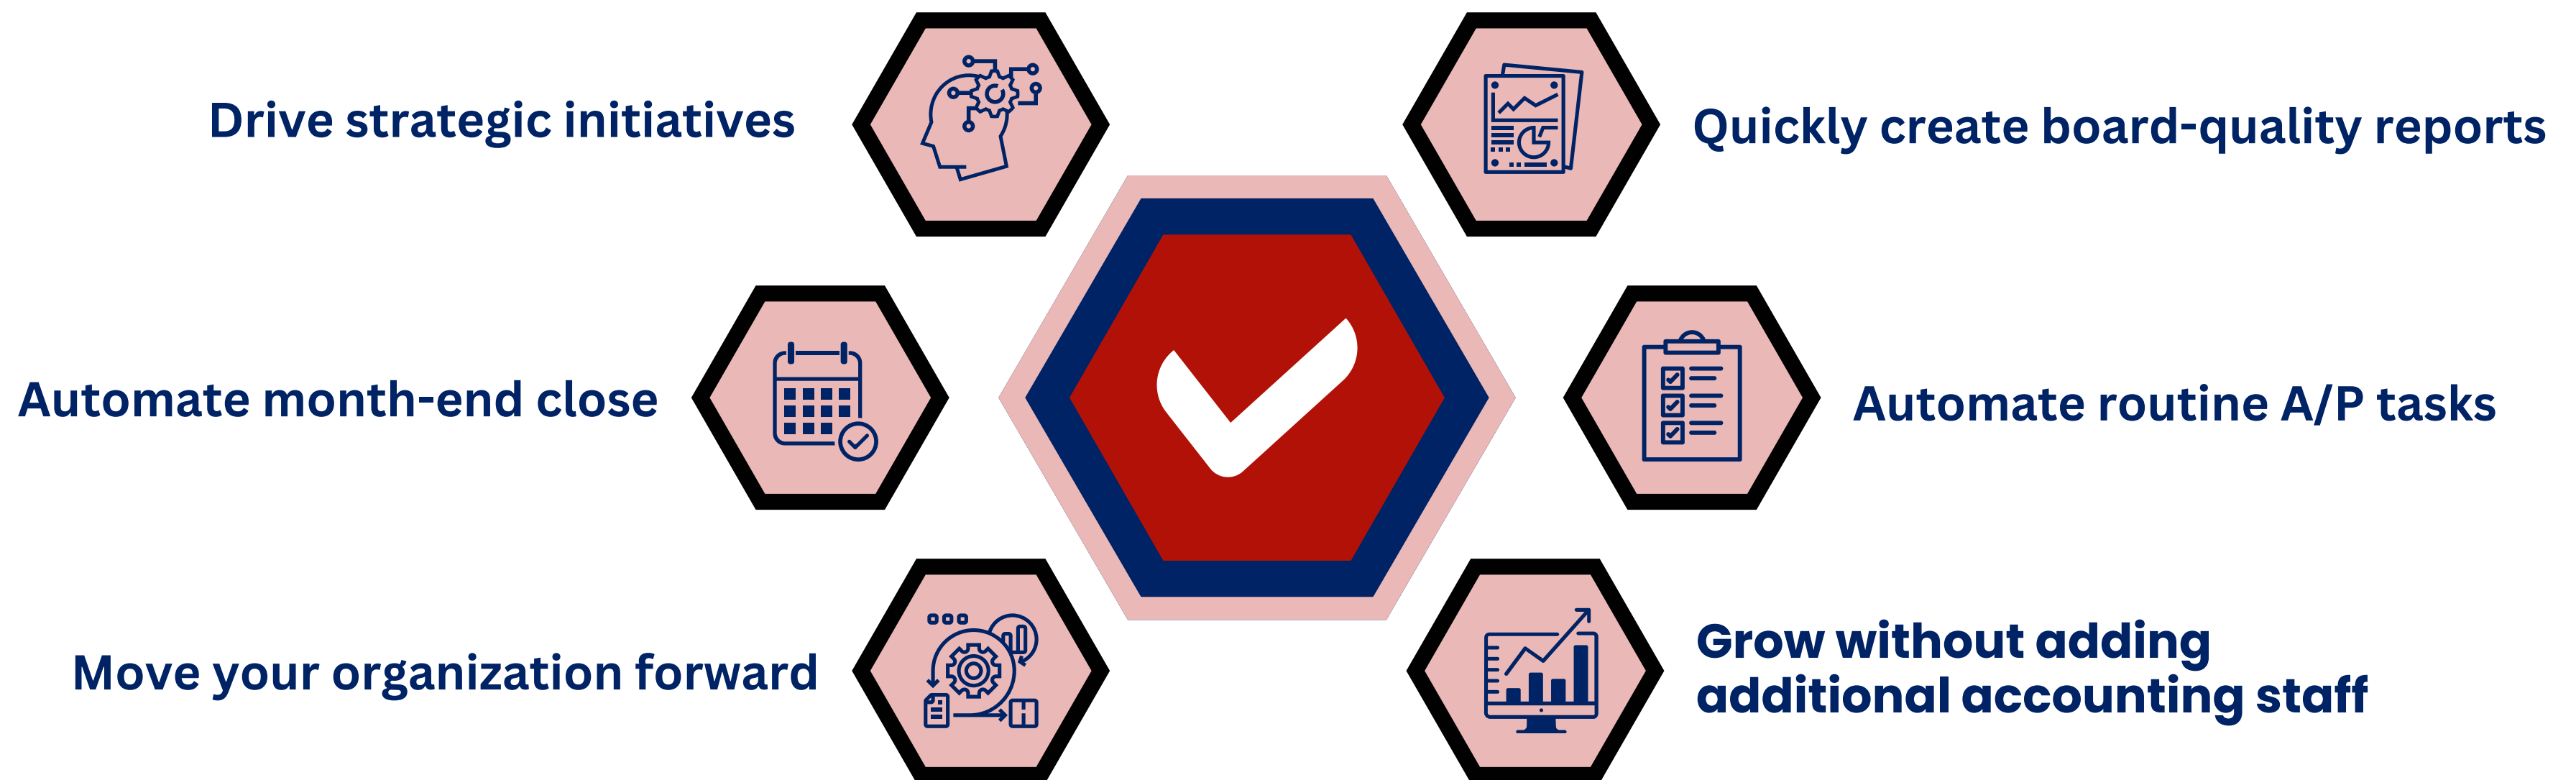

Whether sharing financial reports with board members or clinical outcomes with frontline staff, everyone can access the information they need to understand their role in achieving organizational goals.

Trust that everyone is working from the same data

Removing Barriers so CEOs can Drive Growth

Through seamless integration of Sage Intacct and PCC, these two industry-leading platforms enable CEOs to navigate challenges with confidence and focus on delivering high-quality care and achieving strategic objectives.

By embracing this dynamic duo, you can weather the challenges facing the long term care industry and propel your organization toward success.
