

Quick Start for Senior Living Powered by Sage Intacct

Intellitec Solutions

Offered **exclusively** by Intellitec Solutions and integrated with PointClickCare, Quick Start helps Senior Living Facilities improve operations with Sage Intacct at an affordable, fixed fee price. Our expertise will have you fully operational for as low as \$30,000.

"The ability to integrate PointClickCare directly with Sage Intacct has probably saved us a full half day's work at the end of each month. Not only do we have more time, but we are able to close in 5 - 8 days. In the old system it took us 2 and a half weeks to close."

The ERP you want—with the cost certainty you deserve

Q: What else do I need to factor in, or are there any additional costs?

A: **There's no catch.** There are no hidden fees and no surprise charges. The only potential additional costs would be if you choose to add modules or third-party solutions for specialized needs.

Q: Will this make it faster?

A: Yes, absolutely. Like its name, the Quick Start program provides pre-built, industry-proven Chart of Accounts and Dimension structure. Instead of spending months designing these from scratch, you get a ready-to-use framework built for senior living - saving time, eliminating guesswork, and ensuring a smooth transition to Sage Intacct.

Q: Who will we be working with on this?

A: The A-team at Intellitec. We do not outsource and this is not a training exercise. You will get our top level industry experts optimizing your implementation for your needs, with **20+ years of senior living industry** specific best practices.

"Intellitec isn't just a vendor. They're a partner. They really want to get and understand your needs and wants."
